English (Native)

Mandarin (Advanced)

💼 // Experience

Software Engineer | Clear C2 CRM
10/2021 - 06/2024

- Delivered 2500+ commits on high-impact web and mobile projects for Verizon and C2 CRM, ensuring code quality and accessibility.
- Reviewed and managed pull requests to uphold best practices, scalability, and adherence to industry standards.
- Architected complex epics and features for Verizon projects, driving project success in AGILE environments.
- Led company-wide presentations on a11y, git, htmx, Svelte, voice-development, and more.
- Collaborative in AGILE teams using Figma, Slack, and Zoom to ship tested, maintainable, and efficient code.

React, Remix, Typescript, Redux, Tailwind, Git, Github, Jira, Gitlab, Node, Jenkins, Stripe, Figma, Slack, Zoom, AGILE

React Instructor | NuCamp
06/2022 - Present

- Instruct prospective developers on topics such as React, Javascript, Redux Toolkit, HTML and CSS.
- Create supplementary and engaging learning materials and tests to support learning difficult concepts.
- Help with student projects, provide general guidance, assistance, and code reviews.
- 4.91 / 5 ⭐ (143 reviews). Weekends Only.

React, Javascript, HTML, CSS, Redux Toolkit, Firebase

Managing Partner | Astraphos
03/2020 - 10/2021

- International small business website development and marketing.
- Increased traffic flow, sign-ups, and purchases using custom code solutions and WordPress tooling.
- Managed hosting, backups, emails, edits, and more.

WordPress, Javascript, CSS, HTML, jQuery, Hostinger, Namecheap
